Emerging Technologies in NM Programme
Wednesday 4th November 2026
09:30 – 17:00

Start	Finish	
09:30	**10:00**	**Arrival & Registration**
10:00	**10:10**	**Welcome and Introductions**
10:10	10:40	**Novel Radionuclide Therapy: A UK perspective –** Chloe Bowen, Imperial College Healthcare NHS Trust
10:40	11:10	**How Do You Measure the Future? Metrology for Emerging Radionuclides** - Andrew Fenwick, National Physical Laboratory
11:10	**11:40**	**Coffee**
11:40	12:10	**Correlated Errors and the Limits of Multimodel Consensus in Radiologic Anatomy Identification by Multimodal Large Language Models: Comparative Evaluation Study** – Behrad Vakili and Anussan Nadarasa, King's College London
12:10	12:40	**Radiopharmaceutical drone delivery: Where we're going we don't need roads!** – Lisa Rowley, University Hospitals Coventry and Warwickshire NHS Trust
12:40	**13:40**	**Lunch**

Emerging Technologies in NM Programme
Wednesday 4th November 2026
09:30 – 17:00

Start	Finish	
12:40	**13:40**	**Lunch**
13:40	14:10	**Beyond image reconstruction: The evolving role of Artificial Intelligence in Nuclear Medicine** – Clara Ferreira, NHS England & Coventry University
14:10	14:40	**Scan-dalous! PET-CT makes its way into the operating theatre** – Chris Pickles, University Hospitals Coventry and Warwickshire NHS Trust
14:40	15:10	**Data Driven PET Cardiac Amplitude Gating Using ECG and Listmode Data** - Matthew Gill, Siemens Healthineers
15:10	**15:40**	**Coffee**
15:40	16:10	**Trues-to-randoms ratio across the FOV for imaging different radiotracers on a LAFOV PET** – Vanessa Nadig, Siemens Healthineers
16:10	16:40	**Total Body PET: Challenges and Opportunities** - Jane MacKewn, King's College London
16:40	**16:50**	**Wrap up and Close**
