

IPEM'S MPE (MEDICAL PHYSICS EXPERT) UPDATE 2026

WHY MPE?

Exhibiting or sponsoring at IPEM's MPE Update 2026 offers a powerful opportunity to connect with Medical Physics Experts from across Diagnostic Radiology, Nuclear Medicine, and Radiotherapy. This focused, one-day, in-person event brings together leading clinicians, regulators, and technical specialists to discuss the latest developments in IR(ME)R legislation, MPE certification pathways, optimisation strategies, procurement considerations, and emerging best practice. By aligning your organisation with this high-impact programme, you will position your solutions directly in front of professionals seeking practical, actionable insights to enhance clinical safety, compliance, and service quality.

With delegates attending specifically to keep pace with regulatory changes, strengthen professional competence, and exchange experiences across disciplines, exhibiting or sponsoring provides a unique platform for meaningful engagement. You'll have the chance to display innovations, support the community's CPD needs, and build relationships with individuals who influence purchasing decisions and strategic direction across UK medical physics services.

PAST PERFORMANCE

The MPE is held Bi-Annually in-person and has precedent for attracting over 170 registrants. Just some of the job roles covered by attendees include;

- Clinical Scientists
- Principle Clinical Scientists
- Principle Physicists
- Medical Physicists
- Consultant Clinical Scientists
- Heads of Nuclear Medicine Physics
- Consultant Physicists
- Heads of Radiotherapy Physics

Attendance is geographically widespread with previous attendance ranging from Guy's and St Thomas and East and North Hertfordshire all the way up to NHS Greater Glasgow and Clyde.

This year's MPE Update will be held on 29th April Double Hilton, Bristol City Centre.
